Wireless Connectivity

At Seattle Convention Center (SCC), we understand wireless technology plays an important role in creating a positive experience for clients, exhibitors, and event attendees. That is why we offer multiple state-of-the-art wireless options throughout the SCC campus.

High-Capacity Wi-Fi Capabilities

Our network can support over 40,000 wireless connections simultaneously, and we also offer supplemental access points that can be deployed to specific areas should the need for more coverage arise. In addition, Smart City, our internet connectivity service partner, is onsite to help if needed.

The SCC campus is equipped with the following:

- 575 Juniper Wireless Access Points in Arch, 650 in Summit
- Dual 10 gig circuits to the internet in Arch, single in Summit
- Single-mode fiber infrastructure throughout the buildings
- Complete Cisco Network backbone
- Cat6 jacks and cabling provided to the end-user

Contact Smart City to learn more about high-capacity Wi-Fi at 206-505-5490 or sccinfo@smartcity.com.

Complimentary Wi-Fi

Should you choose not to provide high capacity wireless for your event, complimentary Wi-Fi is available in common areas and meeting rooms. The speed is 1Mbps per connection and supports basic browsing, emailing, and texting. Video streaming or activities using substantial Wi-Fi will likely require supplemental access. Connect to the complimentary Wi-Fi by choosing Free SCC WiFi network on your internet-enabled device and following the prompts.

Exhibitor Wi-Fi

Exhibitor connectivity needs can vary, so we offer two options:

Option 1:

Exhibitors can access the Wi-Fi in the trade show area for \$79.99 per connection for one day. The speed is 3Mbps per device, which is intended for browsing and similar activities, not commercial transactions. Connect by choosing Exhibitor Internet on your internet-enabled device and following the prompts.

Option 2:

For more robust connectivity and expert onsite support, we have scalable networks to meet your needs. Contact SCC Exhibitor Services at 206-694-5015 or exhibitor.services@seattleconventioncenter.com for more information.
